## Biological \& Pre-Professional Sciences AS Course Map (updated for 21-22)

| BPPS AS Program $\quad$ Semester: Fall/Spring/Summer |  | Courses in Major |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Level of Instruction Criteria | Program Outcomes | $\begin{aligned} & \text { BOT } \\ & 1114 \end{aligned}$ | ZOO 1114 | $\begin{aligned} & \text { ZOO } \\ & 2114 \end{aligned}$ | $\begin{gathered} \text { MATH } \\ 1613 \end{gathered}$ | $\begin{aligned} & \text { CHEM } \\ & 1115 \end{aligned}$ | $\begin{aligned} & \text { PHYS } \\ & 1114 \end{aligned}$ | $\begin{aligned} & \text { CHEM } \\ & 1215 \end{aligned}$ | $\begin{gathered} \text { BIO } \\ 2115 \end{gathered}$ | $\begin{gathered} \text { MATH } \\ 2265 \end{gathered}$ | $\begin{aligned} & \text { PHYS } \\ & 1214 \end{aligned}$ |
| (I) <br> Introduced <br> At the collegiate level, students are not expected to be familiar with the content or skill. <br> Instruction and learning activities focus on basic knowledge, skills, and/or entry-level complexity. | PO 1 Illustrate the basic molecular genetic processes of DNA replication and protein synthesis. <br> 1. Replicate a segment of DNA by determining the complimentary sequence of nitrogenous bases. <br> 2. Transcribe mRNA from DNA by determining the sequence of mRNA that would result from a given sequence of DNA. <br> 3. Translate mRNA to protein by determining the sequence of amino acids that would result from a sequence of mRNA. | I | 1 | A |  |  |  |  | A |  |  |
| (R) <br> Reinforced <br> At the collegiate level, students $\underline{\text { are }}$ expected to possess a basic level of knowledge and familiarity with the content or skills. <br> Instruction and learning concentrate on enhancing and strengthening previous collegiate knowledge/skills and complexity | PO 2 Apply problem solving strategies. <br> 1. Apply appropriate equation to the problem <br> 2. Choose the correct value for each variable <br> 3. Solve the mathematical equation |  |  |  | R | R | R | R |  | A | A |
| (A) <br> Advanced <br> At the collegiate level, students $\underline{\text { are }}$ expected to possess a strong foundation in the knowledge, skill or competency. <br> Instruction and learning activities continue to build upon previous competencies with increased complexity and application of use. | PO 3 Perform safe and appropriate laboratory techniques. <br> 1. Apply appropriate personal protective equipment <br> 2. Demonstrate proper laboratory hygiene <br> 3. Demonstrate proper laboratory safety | 1 | 1 |  |  | 1 | I | A | A |  | A |
